EDUCATION

Virginia State University | Petersburg, VA

Dec 2027

B.S. in Computer Science | GPA: 3.7/4.0

- **Relevant Courses:** Programming I, Programming II, Data Structures, Web Programming, Database Systems, Intro Information Assurance, Discrete Structures, Intro Artificial Intelligence, Programming Languages
- **Honors:** VSU Honors College Student, Computer Science 3.0+ GPA Award (2024 – 2025) (2025 – 2026)

TECHNICAL SKILLS

Languages (by proficiency): Python, Java, HTML, SQL, PHP, JavaScript, C#

Tools and Frameworks: Power Automate, Discord.py, Bootstrap, Node.js, PyTorch

AI & Data Tools: Google Gemini, Ollama, GitHub Copilot, Anthropic Claude

RELEVANT EXPERIENCE

Virginia State University | Petersburg, VA

Aug 2025 - May 2026

Computer Science ELAH Student Worker

- Implemented and tested an inventory database using Microsoft Access to streamline tracking processes.
- Explored AI, machine learning, LLMs, and data structures to enhance technical knowledge and application.
- Organized and set up Computer Science Esports Lab to support student engagement and collaboration.

Virginia State University Research and Economic Development | Petersburg, VA

Jun 2026 - Aug 2026

Computer Science AI Intern

- Developed a copilot tool to facilitate professor collaboration based on interests and relevant topics.
- Streamlined RFA processing by aligning professors with relevant funding opportunities to facilitate project support.
- Automated administrative processes with Power Automate and AI-driven prompt engineering to enhance workflow efficiency.

PROJECTS

Paradise Game Launcher | Personal Project

May 2026

- Architected and developed a dynamic desktop game launcher featuring automated .lnk/.url shortcut scanning and custom application themes.
- Integrated system hardware monitoring and visual feedback components into a clean WPF user interface.
- Utilized AI-assisted engineering workflows to rapidly prototype interface modules, refactor background file-handling logic, and optimize system resource consumption.
